WHEN YOU LEARN AT YOUR PACE, YOU ACE.

Guiding Every Student to Success

At 21K School, our mission is to enable all learners to access learning through the happiest classrooms, offering a quality, inclusive learning environment, and several global curriculum choices and bringing quality facilitators who love to teach on a universal platform that can be accessed by students anywhere in the world.

We are an inclusive, child-centric school offering students a transparent, affordable, high-quality education. We aim to help children ace their future one lesson at a time with personalised, self-paced learning. By allowing them to complete their coursework at a pace that is right for them, while building skills at every step, we give them the best chance of success.

School Overview

Global Curricula

Offers Indian (NCF), American (American Core Standards) and British (Cambridge, Edexcel) curricula

Message From Head of Schools

It is an absolute pleasure welcoming students and parents to 21K School. As a parent, you want nothing but the best for your children. A school that offers a solid academic foundation, engaging and interactive learning environments, and opportunities to explore their passions can help them reach their full potential. Through our skill-based learning, which is focused on problem-solving, collaboration, and real-world experiences, we hope to prepare our learners to explore careers in diverse industries and develop the 21st Century skills needed to succeed in school and beyond. This approach emphasises the student's role in the learning process, giving them the autonomy to explore, ask questions, share ideas and continue exploring issues they are interested in. We look forward to starting an inspiring and enriching journey with you!

Wishing all of our students success,

Aruna Shetty

HyTech Schooling - Future is now!

Several reasons create unnecessary hurdles for parents and children to avail quality education. While cities attract the best teachers, people living in other areas have to do with sub-par faculty. This is why we wanted to be location agnostic and bring world-class education to your world—wherever that might be. Moreover, our Learning System is designed to make learning more fun and engaging by incorporating technology into the educational process. With our innovative approach, students can get the most out of their lessons while enjoying every step of the process.

We strive to provide parents with maximum value for the money and time spent on their child's education, which is why we are committed to using the latest technology to improve learning outcomes. In 2023, we endeavour to make schooling hybrid, led by technology, to improve learning outcomes and a safer schooling experience for students worldwide. Hybrid learning provides a unique opportunity to combine the high-tech learning experience online and the traditional in-person social experience. It gives students unprecedented levels of freedom and access to education. We call this **HyTech Schooling**—a combination of hybrid and online education driven by technology.

Hybrid schooling is growing in popularity, and we are all becoming part of revolutionising how our children learn. Hybrid learning provides a unique opportunity to combine the high-tech learning experience online and the traditional in-person social experience. It gives students unprecedented levels of freedom and access to education. We recognise the importance of hybrid learning and are now driving forward a vital movement that establishes hybrid schooling's place in our future.

Shaping Futures: 21K Academic Crew

Quality teaching is the cornerstone of our institution. We believe that students deserve nothing less than the best education, and our facilitators consistently deliver on this promise. Our dedicated crew stands as pillars of strength, guiding our students towards a brighter future. They inspire, mentor, and shape the future with dedication and passion. Beyond the classroom, they instil values, foster creativity, and empower tomorrow's leaders. They go the extra mile, nurturing holistic development through community engagement and extracurricular activities. Our educators are more than teachers; they are the heroes shaping the future of our students and our society.

THE INSTITUTE FOR
HABITS OF MIND

21K School has recently been certified as an “**International Habits of Mind Learning Community of Excellence**”. We are the first School in Asia to receive this prestigious certification of excellence.

21K School infuses the world-renowned 16 Habits of Mind into its academic practices as exemplary student attributes. Students will learn to become critical thinkers and develop a sense of inquiry, persistence, and flexible thinking, as well as strength-based cognitive skills of success that can be taught, coached and practised. The Institute for Habits of Mind, USA, founded by pioneering researchers and authors Dr Arthur Costa and Dr Bena Kallick, is an international organisation which helps educators, parents, and all who care for children to learn, practice, and infuse the Habits of Mind into their work and lives.

The Habits of Mind programmes have been provided to a selected less than 150 schools worldwide, including 21K School. The process of certifying 21K School as an International Habits of Mind Community of Excellence was rigorous. Our entire Academic Leadership team took a 6-month course and was coached by Ms Bena Kallick and Ms Allison Zmuda.

At 21K School, we are committed to the ongoing growth and development of Habits of Mind. The award of a Habits of Mind Learning Community of Excellence is a recognition of this commitment.

Thinking About Your Thinking (Metacognition)

Know your Knowing!

Being aware of your own thoughts, strategies, feelings and actions and their effects on others.

Persisting

Stick to it!

Persevering with a task through to completion; remaining focused. Searching for ways to reach your goal when stuck. Not giving up.

Managing Impulsivity

Take your time!

Thinking before acting; remaining calm, thoughtful and deliberative.

Striving for Accuracy

Check it again!

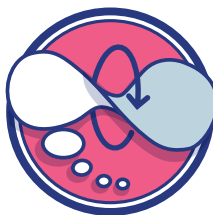

Doing your best. Setting high standards. Fact checking and finding ways to improve.

Listening with Understanding and Empathy

Understand others!

Devoting mental energy to another person's thoughts and ideas. Making an effort to perceive another's point of view and emotions.

Thinking Flexibly

Look at it another way!

Being able to change perspectives; generating alternatives; considering options.

Questioning and Posing Problems

How do you know?

Having a questioning attitude; knowing what data are needed & developing questioning strategies to produce those data. Finding problems to solve.

Thinking Interdependently

Work together!

Working with and learning from others in reciprocal situations. Teamwork.

Thinking & Communicating with Clarity and Precision

Be clear!

Striving for accurate communication in both written and oral form; avoiding over-generalizations, distortions, deletions and exaggerations.

Applying Past Knowledge to New Situations

Use what you learn!

Accessing prior knowledge; transferring knowledge beyond the situation in which it was learned.

Gathering Data Through All Senses

Use your natural pathways!

Paying attention to the world around you. Gathering data through all the senses: Sight, Sound, Smell, Taste, and Touch.

Creating, Imagining, and Innovating

Try a different or new way!

Generating possibilities; playing with new ideas.

Taking Responsible Risks

Venture out!

Being adventuresome; living on the edge of your competence.

Finding Humor

Laugh a little!

Finding the whimsical, incongruous and unexpected. Being able to laugh at one's self.

Responding with Wonderment and Awe

Become intrigued!

Finding the world awesome, mysterious and being intrigued with phenomena and beauty.

Remaining Open to Continuous Learning

Learn throughout your lifetime!

Having humility and admitting when you don't know and are curious to find out. Resisting complacency.

Social & Emotional Learning

Social and emotional learning is an integral part of education and human development. To achieve this goal, we:

- Strive to create a positive connection,
- Increase self-esteem and responsibility towards others and
- Build a strong character and citizenship.

Community and service activities like food donation drives, visits to orphanages and senior citizen homes, tree plantation drives, etc., develop the self-awareness, self-control, and interpersonal skills. Emotional skills within 21K school is consolidated by having guidance sessions with school counselors, peer-buddy programs focusing on mindfulness and wellbeing, counselling, talk sessions on SEL, Cyber safety and security and group therapy sessions. It is the aim of 21K School to focus on social and emotional competencies with an awareness that these are going to be the principal core competencies of the new age.

Special Education Needs

21K school offers students a variety of experiences to develop their skills and build on their socio-emotional experiences. As our school is inclusive, we can accommodate students with varying special needs. Our programme is structured so that all students, with or without difficulties, have an equal opportunity to learn, grow, and flourish. The following are the services to students with special needs based on their needs.

Counselling Interventions - The counselling department provides individual and group counselling to students with special needs within the scope of the action plan developed.

Remedial services - An approach to teaching that aims to bridge the gaps in learning by using modes/techniques with which the student is comfortable.

Concessions - Assistance during assessments and concessions gauged based on the needs of the students.

Consultation - Offers an opportunity to parents to reach out to the counsellors and seek their support all year round.

Advocacy - Working with all the individuals in the child's ecosystem to have a comfortable and happy year ahead.

Parent Engagement

Parenting is a complex and challenging journey; as a parent, you often feel like you're walking the path alone. That's why here at 21K School, we understand how important it is for parents to have the extra support and resources they need to give their children the best possible opportunities. In line with this, we have taken some of the following exciting initiatives:

21K Social

With topics ranging from business networking and parenting tips to local guides and travel, our incredible social platform, 21K Social, allows parents to open up avenues of communication with parents in different geographies, curriculums and grades.

21K Tangents

21K Tangents offers parents access to expert and informed articles weekly to help parents navigate their parenting journeys. This curated newsletter has everything from advice on how to effectively communicate with their children to tips and tricks on education!

21K Mobile App

21K school has recently released a mobile application which will be a gateway between the parents and the school. The application focuses on transparency and will ensure that the parents can reach the school at their fingertips. The application is available as an Android Play store, iOS, and web.

21K Meet-ups

We have been preparing an incredible experience for parents full of webinars, events, and much more. Our team has also planned a series of meetups in several cities across the country and abroad.

Student Engagement

At 21K School, our calendar is constantly full of exciting activities. Beyond the regular classes and activities, students also participate in celebrations, festivals, inter-house activities, Lit-Fest, Shark Tank, Mathalon, Social Fest, Art Fest, Science Exhibition and more. Fields Trips, Excursions and Student Exchange programmes allow students to engage with other children across cities and countries. We take pride in offering our students a variety of enriching experiences that foster personal growth and help develop important skills.

Learning Kit

Student's Learning Kit is a physical set of textbooks and workbooks for use throughout the academic year. This is essential for written work and practice. Parents will get the Kit at their residence on enrolment and after payment of the Kit charges.

Hola, Bonjour, Namaste, Vanakkam!

Our students are brilliant, open-minded individuals who embrace the importance of languages. Our curriculum starts in English from elementary school. As students gain confidence through the school, additional 5 Foreign and 8 Indian Regional Languages are introduced as choices for 2nd and 3rd Languages, enabling students to develop their linguistic abilities further.

Benefits of learning multiple languages:

- Increases creativity
- Improves analytical skills
- Strengthens brain muscles
- Fosters cultural awareness
- Develops global relationships
- Opens career opportunities

2nd & 3rd Language Choices

Foreign Languages	Regional Languages	
Arabic	Hindi	Marathi
French	Kannada	Sanskrit
Japanese	Tamil	Malayalam
Spanish	Telugu	Urdu
ESOL (English)		

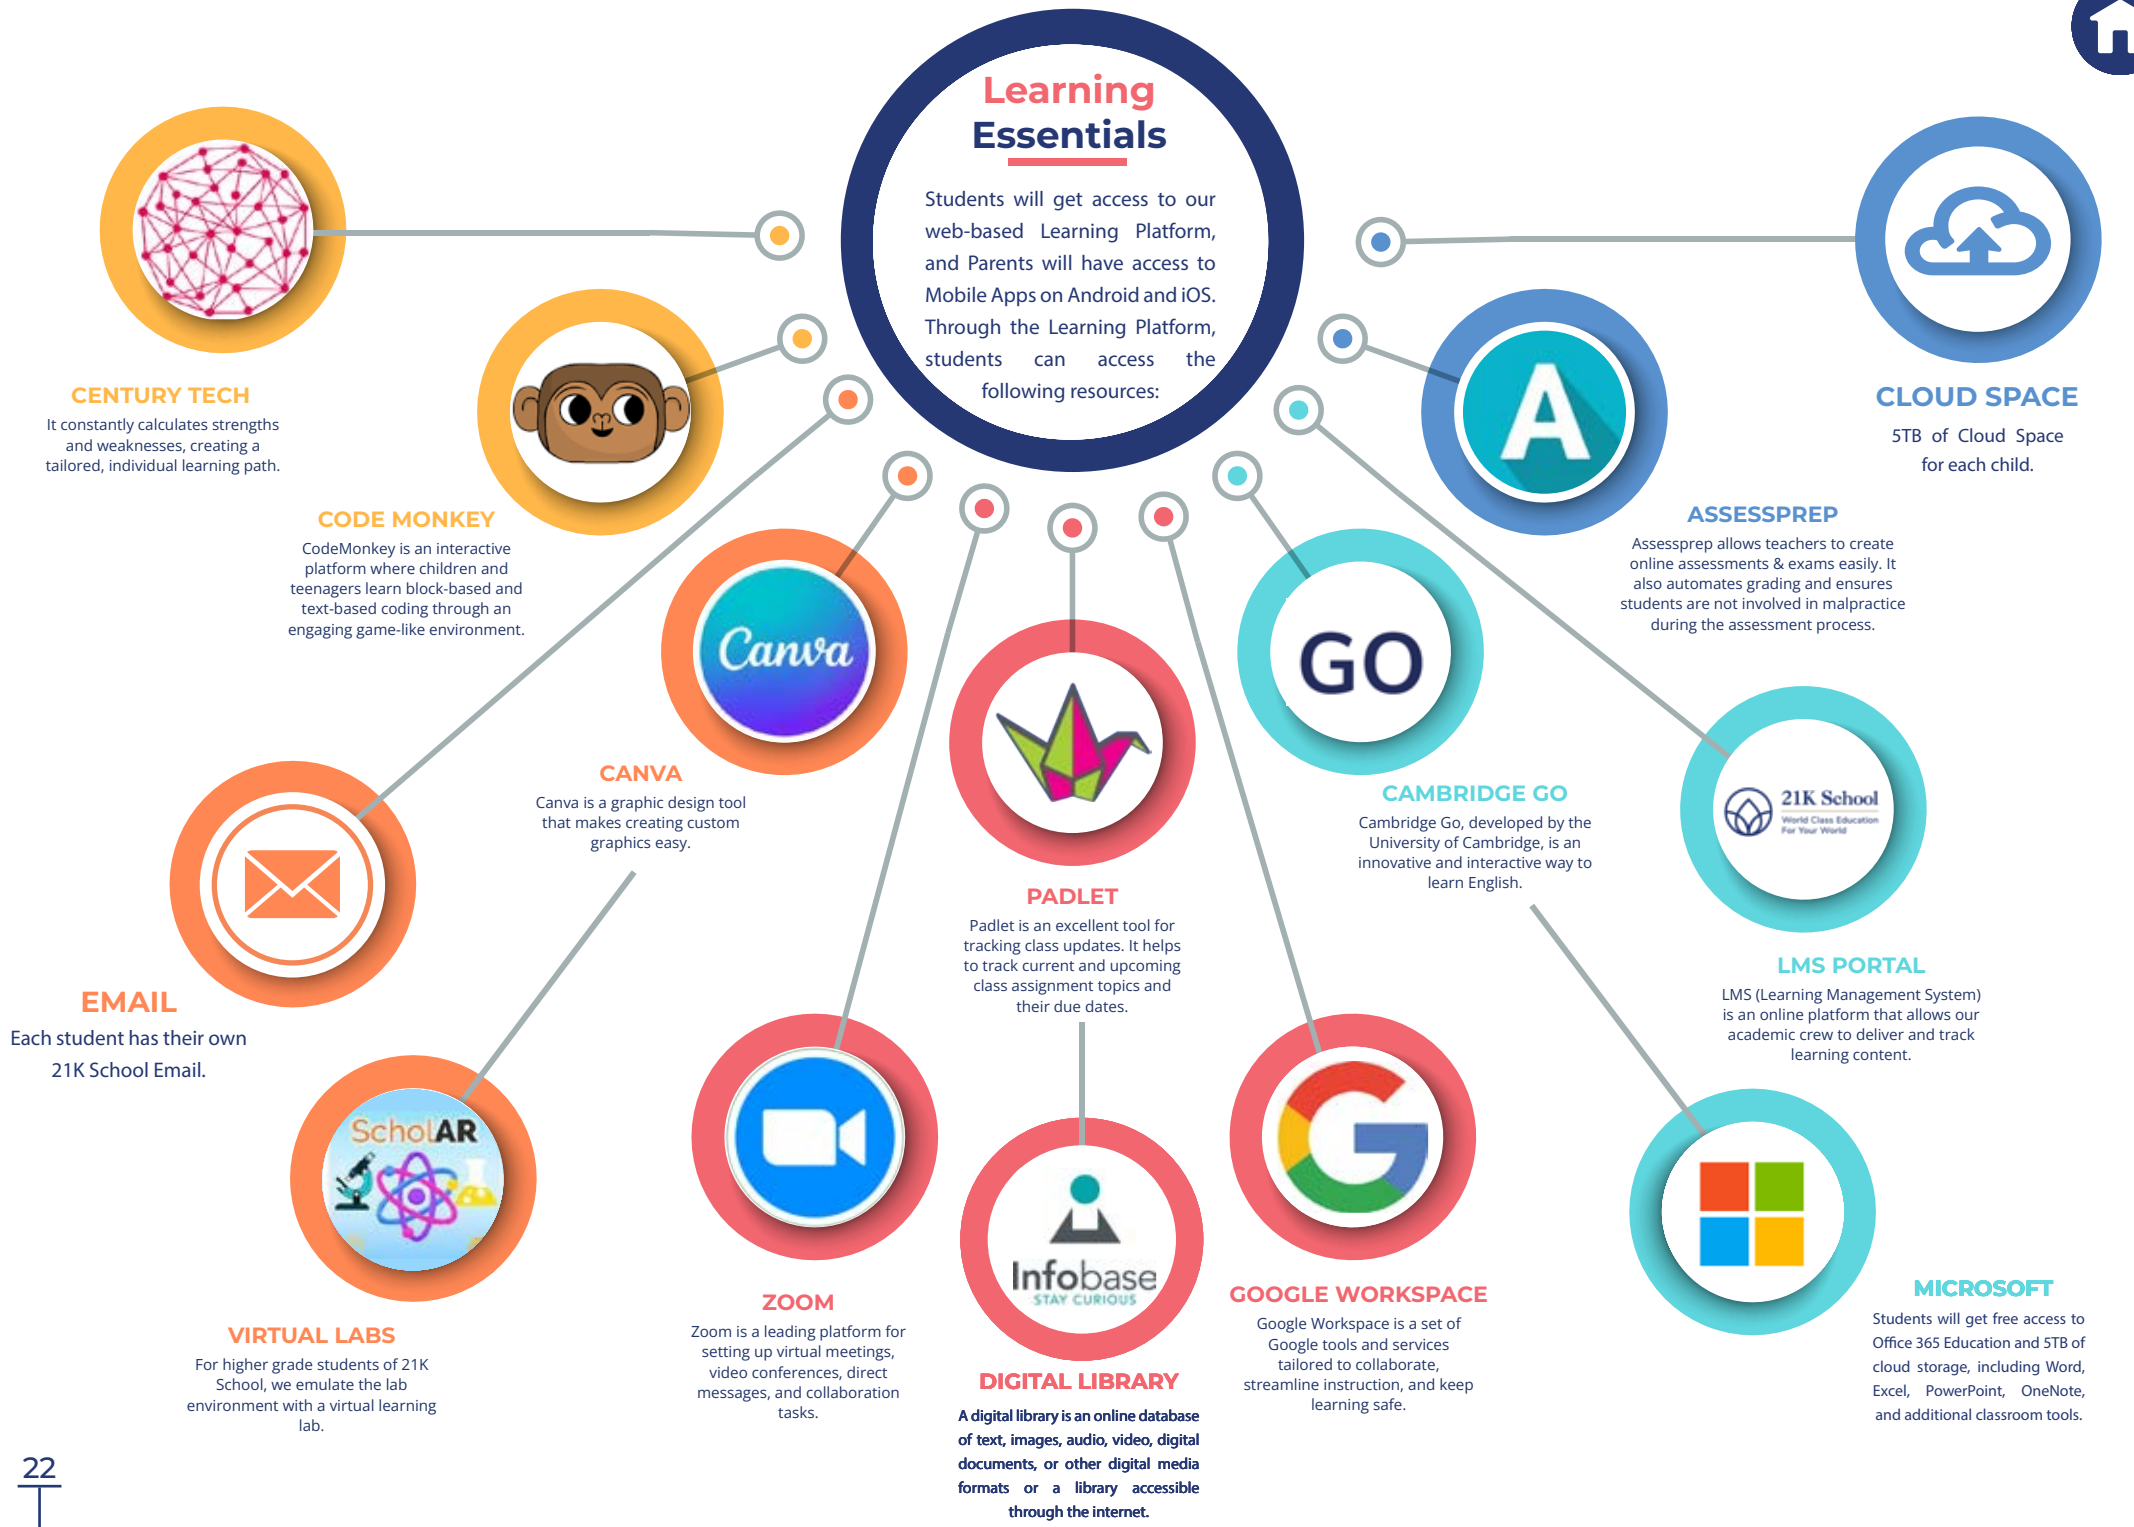

21K Digital Learning Platform

Our Digital Learning Platform is a revolutionary way to personalise learning. 96% of our parents report that they have a good sense of their child's academic progress and accomplishments. Our AI-enabled digital platform helps us determine the improvements required in students and identify the strengths and weaknesses of each student. Starting next academic year, our school will provide its students with a unique email ID that includes the name of their beloved school. Students will also have cloud storage space of up to 5TB to store all academic documents, PDFs, eBooks, and so on.

Personalised Learning Approach

A personalised learning is the customization and adaptation of educational methods and techniques so that the learning process is better suited for each individual learner, with their own unique learning style, background, needs, and previous experiences. By allowing them to progress at their own pace, they can focus on the topics and concepts they need more time to understand, and move quickly through material they already know. This can help students feel more confident and motivated, and can lead to deeper understanding and mastery of the subject matter.

21K Skills Programme

Giving wings to the next generation of innovators

21K Skills Programme is a unique offering to all 21K students from Grade - 1 onwards. These skill-based programmes are offered in form of series of workshops and sessions throughout the academic year on Saturdays. They provide an excellent opportunity for children to develop their problem-solving and analytical skills, enhance their knowledge and discover new interests.

21K Skills Programmes are skill-based and connected to the real world. Professionals and experts from diverse backgrounds conduct these sessions. Some of the programs we focus on are listed below:

Zumba

Life Skills for
21st Century

Artist in Me

Creative Writing

Public
speaking

Money
Management

Cyber
Security

Animation

Coding

Vedic
Mathematics

Photography

Exploration

- These Programmes are offered at no extra cost to 21K School Students.
- Includes Parenting Workshops.

Coding and Computational Thinking

21K School has introduced Coding and Computational Thinking as part of the Academic programme starting from Grade 1. This is necessary, keeping in mind the broad scope and application of computational thinking, problem solving and critical reasoning skills in our lives in the digital era. It is a skill that can be applied to any curriculum area, from kindergarten to the university level. 21K School has associated with Cambridge University Press to offer this Programme and Code Monkey, an AWARD-WINNING online platform that teaches children real coding languages like CoffeeScript and Python through an engaging game-like environment.

Code Monkey

Code Monkey is an AWARD-WINNING online platform that teaches kids real coding languages like CoffeeScript and Python. Children and teenagers learn block-based and text-based coding through an engaging game-like environment. Code Monkey does not require prior coding experience to teach and is designed for schools, clubs, and home use.

Benefits of coding:

- Coding is one of the most marketable skills in today's digital world.
- Coding boosts creativity and self-confidence.
- Coding helps to develop essential problem-solving skills.
- Coding skills can open up many job opportunities with high earning potential.

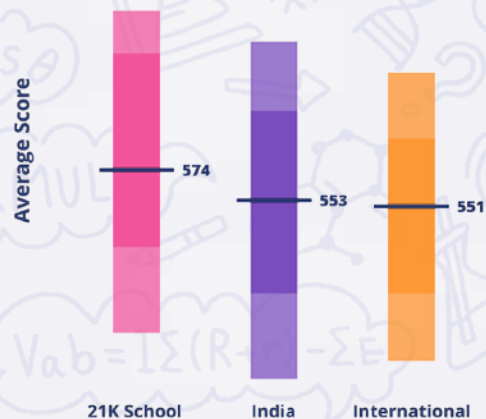

Academic Excellence

Academic Excellence is an integral part of any educational institution, and the students of 21K School have proved that with great pride. The International Benchmark Test (IBT) results, organised by The Australian Council for Educational Research, show how the students have reached the highest academic performance standards. Students from grades 3 to 8 of 21K School participated in the IBT 2022 for English, Science and Mathematics. More than 200+ students bagged certificates of high distinction and honour; 20+ students even attained a national distinction. The average score of 21K School students grade-wise was well above the national and international average compared with schools in India and internationally that attempted the test.

Comparison of IBT Scores in Science Grade 7

Career Pathway

At 21K School, our primary focus is the holistic development of a learner throughout their education journey. We offer our students and their family the support and guidance that could help them reach their unique goals and understand their pathway to success beyond 21K.

Under the Career Pathways programme, we provide:

- Career Counselling, Academic Support and assistance for University Admissions.
- Support in the admission process at some world's renowned universities.
- Different skill enhancement programs which help learners succeed in their careers.

Through ACadru, 21K School supports students in discovering their full potential. ACadru features a thoughtfully curated collection of insights from experts in various fields, fostering an interest-based curriculum that sparks diverse thought processes and enables learners to break free from self-doubt while building a strong academic and career foundation.

Parent and **Student Support**

We have a dedicated team whose sole responsibility is students' success in digital learning. The team assists the parents with administrative queries, connect the parents to the teachers, and practically does all the heavy lifting internally to provide a seamless experience to the parents and the students. To ensure that the student can have a smooth onboarding experience and continued support throughout the year, we have technical experts who are available over the phone, Whatsapp, and Email support. And most importantly, to cater to the holistic development of the students, we have counselors who support the students based on requests from parents or teachers (post consent from the parent).

Student **Success** Stories

Our Student Spotlight celebrates students who have achieved success beyond their curriculum through dedication and hard work while excelling in their studies. [Click here for more such inspiring student stories.](#)

Ravyanshi Singh - Grade 4

She is an author with a keen interest in exploring information related to science, folk culture, natural languages, writing scripts and more.

Juno Kalyani - Grade 1

Juno Kalyani is one of the youngest golfers, competing in the Under 8 category in the IGU South Zone, Karnataka. She secured the 2nd runner-up prize, showcasing her passion for the sport and unwavering determination.

Advait Kolarkar - Grade 4

Advait, young artist was chosen by India's leading newspaper Times of India (TOI) for their prestigious "UNSTOPPABLE21 UNDER21" initiative

Nithila Das - Grade 7

Nithila has broken the barriers of gender norms by excelling in the biking world. Being a part of 21K School, she has actively participated in events and achieved her dream without compromising on quality education.

Swayam Sodha - Grade 5

Dr. Swayam Sodha has achieved remarkable recognition in 2023. He's been awarded "Tech Innovator of the Year 2023, India," as well as the "Huran India Star of Mumbai." He has also garnered recognition from the International Peace20 Youth Summit Committee leadership, who have acknowledged him as their "Super Star Ambassador."

Jayce D'souza - Grade 3

Jayce Anslem D'souza, a talented young author from Goa, has achieved the title of India's 2nd Most Popular Author at just a tender age. His book, "Tiger, Light, and Me," is enchanting and has captured hearts.

Parent **Speak**

“

I am based in Kuala Lumpur, Malaysia. I decided to enrol my daughter at 21K School after I did some research on the internet. My daughter is happy and managed to learn so quickly with the help of ever supportive teachers.

AFIK KUTCHER

”

“

We are thankful to all the teachers, management and tech team in making this year awesome for Kishore. Great going. Thank you all for supporting us to participate in all the national level tennis tournaments without missing the education. We are expecting this for the next academic year also since we plan to participate in Asian Tennis Tournaments. Thank you

SRIRAM

”

“

The structure and curriculum the school follows is really good and it functions just like conventional schools. Syllabus, Teachers, Extracurricular activities and Technical Team are must to mention. And so, I am enrolling my kid for another year too

SABARI SANKARI PARAMASIVAN

”

“

My child simply loves her school. The school has helped her nurture her talents with a very modern & broad approach to education

SMITAKSHI MECH

”

“

Hi Five to homeschooling!! Enrolled my daughter in 21K School and they provide great guidance to the syllabus without making it schooly!! My daughter's never been sharper, calmer and more enthusiastic to learn!!

KARUNA KOCHAR

”

“

We are very happy with the 21K School syllabus and new age practical teaching methods. My son likes the school's code monkey platform a lot and he has been learning software coding and getting ready for future digital world.

LIKHIT REDDY

”

21K Adventure: Where Learning meets Adventure

At 21K School, we believe that education extends far beyond the confines of a classroom. We embrace the power of exploration, curiosity, and hands-on experiences. Our carefully crafted trips and excursions are designed to provide our students with opportunities to discover the world, broaden their horizons, and ignite their passions.

International Trip -

International trip this academic year is scheduled for Dubai.

Overnight Trip -

Two trips, one to Rishikesh and the other to Chennai-Pondicherry- Mahabalipuram, have been arranged for students from Grades 5 - 12.

Day Trip -

We are covering 5 major cities like Bangalore, Chennai, Mumbai, Delhi and Hyderabad.

21K School Sports Program

At 21K School, we recognise the importance of physical fitness and the role that sports play in the development of well-rounded students. With that in mind, we are connecting local Sports Centers to individuals of all ages across India with a mission to provide opportunities for sports education, recreation and competition. Through this initiative, we now have 150+ sports centres signed up and aim to increase this number to 500 before the end of 2023. Through our partnerships with leading sports academies, we are able to offer our students access to top-of-the-line facilities, experienced coaches, and a wide range of sports programs. Our students have the opportunity to participate in sports such as football, basketball, soccer, swimming, tennis, and more and are encouraged to pursue their passions and develop their skills. With access to these resources and guidance from talented mentors, there is no limit to what can be achieved. We are pleased to have undertaken this project and look forward excitedly as we continue on our journey.

Powering Education Mr. Ronnie Screwala

Visionary entrepreneur Ronnie Screwala joining hands with 21K School will go a long way in taking world-class education to places by providing equal opportunity and access to many more students in India and around the world for pursuing quality education.

School Song

21K School Song – The Joy of 21K

The students of 21K School's Grade 5 MA British Curriculum Batch 2022-23 have all come together to express their school spirit with a song. The students created the lyrics, melody, and arrangement, making this song a true expression of their collective voice. The song is not just a source of pride for our school but a reminder of the endless possibilities for our students as they continue learning and growing.

Credits:

Song Lyrics – Shone Deneth
Singer – Shone Deneth
Music Composer – Nainika Akhil
Collaborator – Niranjana Nair
Rhythm – Rivan Chheda

The **Future** of Education

21K School is one of the world's first schools to transition into Web 3.0!

- We are reimagining education with emerging technologies like Blockchain, Metaverse, and NFTs to instil learning, thinking, and creativity in the DNA of our students.
- Students will soon be able to create and sell their Artwork, Books, podcasts, Music, and Videos on 21K School's NFT Marketplace.
- Students can earn reward points for all activities, timely submission of assignments, assessments and marks scored.

The world in 20 years is unsure of what the future will bring, but one thing's for sure - education needs to be on point. There are more pressing issues than ever before when considering how we educate our children today so they can contribute tomorrow.

Enrolments for Now Open! Talk to our Admission Team To Get Started!!

Unlock your child's potential with Asia's leading online school.

We believe that every child has the potential to be successful. With our tailored approach to learning, we provide children with the opportunity to explore their interests and learn beyond the confines of a traditional classroom. At 21K School, your child can:

Study at their own pace

Get an internationally recognised qualification

Study what they are truly interested

Gain the skills they need for their dream career

Have more time doing what they love

Book a meeting with our Admission Team to learn more about us and ask your questions.
